FILTER PLANT GRANT MADE

Word Received Tuesday By City Clerk Tells Of PWA Allocation Of \$8,126

The city's application for a PWA grant of \$8,126 for assistance in making additions to the city filter plant in the waterworks system, has been approved.

This is according to word received Tuesday noon by City Clerk Esther A. Mahler.

According to the city clerk, the grant is intended to represent 45 per cent of the cost of the project, with the city supplying an additional \$9,900. Total cost of the project is estimated at \$18,059.

The city clerk also revealed that the city has a second application pending with the PWA, in which the city asks for \$6,300.

This amount, the city contends, is due the city to fulfill the government's grant of 45 per cent of the cost of the city's sewer plant installation.

In connection with the sewer installation, Fred J. Early, contractor on the (Turn to page 3)

River Victim Identified

Sheriff Opens Inquiry Into Suspected Murder Of Man Known As Frank Ernst

The man whose body was found three weeks ago in the Middle Fork of the American River near Volcanoville, was identified Tuesday morning as Frank Ernst, a prospector.

The name of the man was reported to Sheriff George M. Smith by Supervisor William Breedlove, of Georgetown.

Breedlove said he recalled having seen the man about the community at different times but did not, himself, know the man's name.

However, according to the Supervisor, he learned the man's name from persons in whose company the man had been seen, and affirmed the identification by talking with a Georgetown resident who was with Ernst when he purchased the particular type of rubber boot he was wearing. One boot was found under the body. The other boot was missing.

Breedlove said he knows that Ernst had been mining in the district and had, at different times, met with especially good fortune. All information in the case had been turned over to Sheriff Smith who said Tuesday morning that he hoped to interview some people during the afternoon or early evening, concerning the case.

NEW WAR IN FAR EAST MAY RESULT FROM BORDER DISPUTE

By UNITED PRESS

A new war in the far east seemed nearer today as Russia and Japan engaged in large scale land and aerial fighting on the Siberian frontier.

The tiny corner which comprises the badly defined frontiers of Siberia, Korea and Manchukuo in the region of Vladivostok, Russia's far eastern outpost, held potential danger.

Japan, engrossed with her war in China, appeared to be in no mood for a real war with Russia. Nevertheless, Japanese pride demanded military action against alleged Russian violations of the frontier.

The Russians, on the other hand, took advantage of Japan's weakness on that particular front — the Japanese military might being concentrated in China — and refused to yield an inch. The Soviet Union, which has a heavy military establishment in the region, showed no inclination to negotiate.

Fred Rice Funeral To Be Held Wednesday

The funeral services for Fred Rice, of Camino, will be held at 2 o'clock Wednesday afternoon from Memory Chapel. Following the service the body will be removed to Sacramento for cremation.

Mr. Rice suffered a nervous breakdown about a year ago and since that time had been under the care of a doctor. He was despondent over the unsatisfactory state of his health and this is thought to have accounted for his taking his own life on Sunday afternoon.

SOMETHING FOR FRIDAY—Walt Seifert, right, of Cleveland was one of the first newspapermen to arrive at Cape Vincent, N. Y., to cover the opening of the new Thousand Islands International Bridge, on Aug. 18. With leisure time available, he and his brother Bob got this catch of small-mouthed bass in the St. Lawrence. President Roosevelt expects to open the bridge.

MRS. MARY KRAMP DENIES GUILT

Jury Trial On Burglary Charge Is Set For August 16; Venire Of Thirty Drawn

The trial of Mrs. Mary Kramp, charged with burglary, was set for Tuesday, August 16, and a venire of thirty names was drawn on Tuesday morning in Superior Court as the defendant entered a denial of her guilt at formal arraignment.

Mrs. Kramp is charged, upon the complaint of a Kelsey resident, with the burglary of his home and the theft of certain articles. She is at liberty on bail of \$2,000. Charged with her is Dick Crowder, now and for some time past reported as being confined in a hospital at Palo Alto.

Following setting of the case against Mrs. Kramp for trial, the following thirty named persons were selected to appear for possible jury service in the trial:

Fred P. Anderson, Victor Forni, Clyde Thayer, Samuel Barber, Abbie Carsten, Roy Arling, G. C. Lundlee, Thomas Kerry, Howard Proctor, Dorothy Metcalfe, Walter F. Hansen, William Lehman, Chris Henningsen, Walter J. Puhn, Gordon H. West, Floyd Fox, Jessie Stone, Dwight Douglass, John R. Gluyas, Jr., Adele Engstrom, Charles G. Sackett, W. F. Blodgett, William Baumhoff, Frank Romberg, A. Reynolds, James Stackpole, Albert A. Hanley, Henry D. Parker, William J. White and L. P. Coolidge.

UTAH KIDNAPING AND MURDER CONFESSED BY DETROIT MAN

DETROIT (UP)—Police announced today that John Deering, alias Fred Davis, readily confessed to a murder, a kidnaping and the shooting of two policemen in Salt Lake City.

Deering, who was arrested here July 29 as a suspect in a Hamtrack Finance Company robbery, was reported to have confessed that:

He shot and killed Oliver R. Meredith, Jr., during a holdup at Salt Lake City, May 9.

He kidnaped Mr. and Mrs. Maurice L. Howe, Ogden, at Salt Lake City, on May 7, and forced them to drive him to a lonely spot where he robbed them. He shot two Salt Lake City policemen.

Deering was vague about the police shooting but police said a checkup with Salt Lake City police revealed that two officers had been shot.

Mr. and Mrs. Buster Nicks and Miss Eddis Howe returned over the weekend from a two-week vacation spent at Stockton and at Santa Cruz.

Clarence Tidd was among business callers in town Monday from Lotus.

Rudolph Kunigk was a caller in the county seat from Coloma Tuesday afternoon.

Allocation Made For Courthouse

According to a United Press dispatch from Washington under a Tuesday date, a PWA allocation of \$45,000 has been made for a courthouse at Placerville, California.

Inquiry of County Clerk Arthur J. Koletzke failed to shed any light on any project now pending.

Mr. Koletzke said that some time back there was talk of a courthouse project but that he understood that the proposal had been abandoned.

OFFICIAL TOTALS IN H. S. BOND VOTE ARE GIVEN

Following an official canvass of the votes in the high school bond election of July 26, the school board announced Tuesday afternoon that the total vote in the election was 1295 in favor of the bonds and 5-3 opposed.

The official returns gave Camino 101 votes in favor of the bonds and 7 opposed; and Coloma 65 votes in favor of the bonds and 24 opposed. There was one absentee vote in favor of the bonds and the vote in other precincts was found to be the same as reported in the published unofficial returns.

Our attention has been called to a typographical error in the unofficial tabulation erroneously reporting the vote in Lake Valley district. The vote in Lake Valley district was 72 in favor of the bonds and 13 against.

On the strength of the unofficial returns having indicated that the bond issue had been approved, the high school board formally accepted the PWA offer of a grant to assist in the project at its meeting on Friday last.

The board announced Tuesday that plans and specifications are being prepared in detail by architect Harry J. Devine and that at such time as Mr. Devine completes this work, contracts will be advertised.

Mrs. Sadie Bunton's Funeral Monday

The funeral services for Mrs. Sadie Bunton, shot dead at Shingle Springs early Wednesday morning, were held on Monday afternoon from Memory Chapel. Rev. Harold Morehouse was in charge. Burial was at Union cemetery.

Mrs. Bunton, who had resided at Shingle Springs for the past year and a half, had been employed in recent months by Charles Marogna.

Her death was caused by a gunshot wound in the chest, found to have been inflicted by the discharge of a gun in the hands of Mrs. Ora Marogna, who is now held at the county jail under a charge of murder.

SITE FOR P. O. CONFIRMED

Letter From Procurement Office Reveals Corner Offered For \$13,750

Confirmation of the report that a location at the corner of Bedford Avenue and Main Street has been selected as the site for Placerville's new post office building, was contained in letters received Tuesday by Postmaster Joseph Scherrer and by the L. J. Anderson realty agency, through which the site was offered.

The letter to Postmaster Scherrer is from J. H. Schafer, office manager of the procurement division of the Treasury Department at Washington and was written under date of July 29.

It reveals that the Main Street frontage is 114.2 feet and that the property has a maximum depth of 133 feet, and that the price at which the property was accepted was \$13,750.

Senator McAdoo on Sunday evening had notified Postmaster Scherrer by telephone, of the acceptance of the site near the courthouse by the government.

Carsten Guest Of Lions Club

Camino Bird-Buster Says Prowess With Shotgun "Just An Accident"

Placerville Lions paid compliment Tuesday noon to the trapshooting ability of Ernest Carsten, Jr., of Camino, who recently at Portland won the Pacific Coast championship at sixteen yards.

Carsten was introduced by L. A. Raffetto who made mention of a plan to send Carsten to Vandalia, Ohio, to take part in the Grand American Handicap, the annual grand prize event in trapshooting competition.

Raffetto called attention to "Carsten Night," August 12, in the softball league, when proceeds of the night will go to help finance Carsten's trip east.

The young bird-buster assured the Lions that his ability with a shotgun is more or less accidental, but he estimated that in practice he has shot at approximately 50 thousand targets. He said he likes the Comet targets, which are made by the Diamond Springs Lime Company and finds they sail well and are easily seen.

Carsten said the Vandalia event attracts annually about 700 shooters. Traps are thrown at ten-second intervals and there are twenty-four traps on the range.

H. P. Brown, manager of the Diamond Springs Lime Company, was responsible for interesting Ernest in trapshooting. Mr. Brown was a guest with Carsten at the luncheon and spoke of the universal interest in trapshooting.

"NAVAL BATTLE" MAY BE STAGED AS CORRIGAN DOCKS THURSDAY

NEW YORK (UP)—A possibility—a remote one—of a naval battle developed today as two rival reception committees insisted that they were going out to the harbor in boats Thursday to meet Douglas Corrigan and that each would bring him ashore from the liner Manhattan.

One would take him to Brooklyn borough, for a colossal parade down Flatbush Avenue; the other to Manhattan for a ticker tape parade up the Broadway section and a welcoming at city hall by Mayor F. H. LaGuardia.

Corrigan, returning from Ireland to where he flew on his wrong way trip, was getting sketchy reports of the feud by radio telephone aboard the incoming ship. Both delegations were calling him.

44,000 Dental Plates Bought By WPA

NEW YORK (UP)—The WPA announced today that a contract had been signed with private dental laboratories to supply 22,000 sets of false teeth for home relief recipients here, at the rate of 136 dentures a day. The WPA formerly supplied false teeth made by dentists on relief rolls, but there were not enough of them and some persons had been waiting two years for teeth.

MEDIATOR—Hoping to prevent a deadlock or complete breakdown of negotiations between the Sudeten Germans in Czechoslovakia and the Prague regime, British government has appointed Viscount Walter G. Runciman, as mediator. He is former President of the British Board of Trade and holds a Liberal seat in the House of Lords.

MEETING FRIDAY ON HISTORY SOCIETY

Proposed Unit Would Have Museum Project As Major Immediate Undertaking

A meeting of far-reaching importance to the people of El Dorado County will be held in the Court House Friday night when representatives from county civic and service organizations interested in a proposed County Historical Society will meet to discuss plans for such an organization.

The movement is being sponsored by the Chamber of Commerce through a committee consisting of Ernest Van Harlingen, chairman, Henry Lyon, M. T. Kelly, Joseph Quigley, Don Goodrich, Lloyd Raffetto and L. J. Anderson.

The principal object in forming this historical society is to provide an interested and responsible group which shall devise and carry out plans for the establishment of a suitable fireproof historical building in which to preserve and display the many valuable relics and valuable data of the early days of El Dorado County.

There has been a long-felt need for such a building, properly located on some historic site and under responsible supervision which shall be accessible to the visiting public and the residents of the county. As the result of this demand it has been suggested that the Chamber of Commerce sponsor the Historical Society which can set up a strong organization which shall be representative of the whole county. This group would be well qualified to select a site and raise the necessary funds to complete the project.

WARREN GOOD REPORTER, BAKERSFIELD EDITOR RECALLS

Earl Warren, candidate for Attorney General, in the varied career of his youth worked as a reporter on the Bakersfield Californian, "and filled his position with credit to himself and the paper," Alfred Harrell, Bakersfield publisher and outstanding Democrat recalled yesterday.

As quite a youngster Warren had a paper route on the Californian and, as old residents recount, he delivered his papers on a bicycle, except when the streets became extremely muddy, whereupon he covered the course on a good old fashioned burro.

"I remember him well as a high school correspondent," continued Mr. Harrell. "His work was of such a high order that after his graduation, he was offered and accepted a position as a reporter."

Meteor Explodes As Scientists Watch

LOS ANGELES (UP)—Astronomers at Griffith Observatory were "momentarily dazzled" by the bright flare of a meteor which "exploded" at 9:50 o'clock last night. The meteor, they explained, was a type known as a "bolide," which explodes and showers the earth with dust instead of a solid mass.

The spectacle, which flared over the southern skies, was said to be a forerunner to the perseid meteorites, visible after midnight on Aug. 11.

The sage honey crop in Kern County will be below normal this season.

R. J. MURDOCK SUCCUMBS

Funeral Services Will Be Held At Georgetown On Thursday Afternoon

Robert J. Murdock, 82, a native of Placerville and a lifelong resident of the county, died early Tuesday at his residence at Georgetown.

The funeral services will be conducted on Thursday afternoon at Georgetown by Memento Lodge, I. O. O. F., of which Mr. Murdock had been a member for more than fifty years.

The rites will be at the graveside at Georgetown cemetery, at 2 o'clock in the afternoon.

Mr. Murdock had been ill for the past four weeks and had been a patient at a hospital in Sacramento until Monday, when his wish to return to the home at Georgetown led to his being removed there.

He passed away early Tuesday morning.

Born in Placerville on December 18, 1856, on the site now occupied by the Beach Box and Lumber Company, Mr. Murdock moved to Georgetown as a young man and during his active life was engaged in mining on the north side.

He retired from active work about ten years ago.

Mr. Murdock is survived by his wife, Mrs. Margaret Nancy Murdock, six sons, Charles, Clinton, Larry, Jack, Orrin, and Jess; and two daughters, Mrs. Lulu Ungewitter and Mrs. Edna Tracy.

In addition, eleven grandchildren, two great grandchildren and other relatives also survive.

Suspect Fails In Escape

Man Sought In Roseville Murder Gained At Eureka After Jail Battle

EUREKA (UP)—Everett Gilbert Parman, ex-convict who was captured in a gun battle with police today was to be turned over to authorities from Roseville where he is wanted in connection with the fatal shooting of George McElroy, young football star.

Parman, sought since July 16, when McElroy was shot down at a Roseville business intersection, was recognized last night in a state patrol automobile light inspection by Patrol Captain Sam Kirkpatrick.

The officer arrested Parman and was taking him to the county jail for questioning when the fugitive suddenly drew a pistol and opened fire. He broke away and ran into an alley.

Several other officers joined Kirkpatrick in the chase and a number of shots were exchanged before Parman was captured near a tavern several blocks away.

Parman served sentences in Preston reformatory and Leavenworth penitentiary, police said. Since the shooting he had been working with a crew fighting a forest fire. He told police he was driving to Eureka to meet a girl when he was halted at the highway light testing station and recognized.

MRS. MAROGNA GRANTED CONTINUANCE FOR ARRAIGNMENT

The arraignment of Mrs. Ora Marogna on a charge of murder was continued in Superior Court Tuesday by Judge George H. Thompson until Friday, August 5 at ten o'clock.

Mrs. Marogna appeared for arraignment following filing of an indictment based on a finding by the Grand Jury Monday, charging her with murder and requested a continuance of time for pleading so that she might have her attorneys in court.

Mrs. Marogna is accused of the murder at Shingle Springs on Wednesday last of Mrs. Sadie Bunton.

Man Jailed In Burglary Of Ivy Hotel Room

Alton B. Demet, 29, was arrested at Shingle Springs Monday by City Officers D. W. Le Bourveau and Marvin Killian, in connection with the burglarizing Sunday of a room at the Ivy Hotel.

The officers report that Demet admitted the burglary and gave them information concerning where the loot might be recovered.

BLOWING THE LID OFF

Homer P. Brown Among Merriam Sponsors

Representing a cross-section of California's citizens, one hundred men and women have signed as the official sponsors for Governor Frank P. Merriam's re-election candidacy on the Republican ticket, it was announced by B. M. Melvin, Northern California Campaign Director.

Governor Merriam's El Dorado County sponsor is Homer P. Brown, lime manufacturer.

WOMEN'S COMMITTEE ON '39 EXPOSITION COMPLETED

With the appointment of Mrs. John D. Fredericks as chairman of the committee for women's participation in exposition activities representing the Women's Board of the Golden Gate International Exposition in Los Angeles County, the plan for statewide organization of women to aid in furthering interest in the Exposition throughout California is practically complete. Announcement of Mrs. Fredericks' acceptance to represent the Women's Board in Los Angeles county has been made by Mrs. George T. Cameron, chairman.

Selection of the women in California's counties who will head up Exposition work therein, and serve as a liaison between the women of the State and the Exposition has been the task of Mrs. Alfred McLaughlin, State chairman of the county organization. The women who have accepted these chairmanships to represent the Women's Board in their respective counties include Mrs. Harriet Amstalden, El Dorado County.

PARADE OF SPORTS

By HENRY McLEMORE
(United Press Staff Writer)

NEW YORK. (UP)—Any moment now some enterprising reporter is going to get hold of Hank Greenberg, first baseman of the Detroit Tigers, and get an exclusive interview concerning his chances of bettering Babe Ruth's record of 60 home runs in one season.

In a burst of confidence, and with a warning not to repeat it to a soul, Greenberg is going to tell the reporter something very much like this:

"To tell you the truth, I haven't given the business of breaking Babe's record a thought. I've just been going up there and taking my cut at the ball and letting what happens happen. I've been lucky lately, that's all. There never was a home run hitter like Babe, and I don't guess there ever will be."

When I read this interview—and its coming, just as sure as tomorrow is—I am going to say "Cashew," which is just another way of saying "nuts."

Because Hank Greenberg is a smart young man; one of the smartest young men in baseball, in fact. He knows—and he knows he knows!—that today he has hit 37 home runs in 92 games. He knows, too, that in 1927, the year Babe Ruth smacked his 60 round trips, he hit his 37th homer in the Yankees' 113th game—on August 16th.

Don't you ever believe that a fellow with as sound mental equipment as Greenberg doesn't realize what it would mean to him to beat the mighty Ruth's mighty mark. Ruth made a fortune out of it. A fortune awaits Greenberg if he tops the mark that for a while appeared as if it might stand for all time.

All the things that came to Ruth would come to Hank, whose ancestral home stands proudly in the Bronx, only a few blocks from the Yankee Stadium where Ruth rose to fame and fortune. We would have a Greenbergian era just as we had a Ruthian era. Hank's homers would become known as "typical Greenbergian swats" just as Babe's were always referred to as "Ruthian efforts or swats or pokes." He would be a man apart—a mighty man. The number on his back would become sacred, just as did Red Grange with his 77 and Ruth's 3.

A press agent would take him under his wing and build him into a great writer, a great talker, a great actor, a great endorser, ready to testify to the merits of everything from stainless steel chicken wire to bustles for women.

But will Hank Greenberg top Mr. Ruth's mark? It all depends on Hank.

CALIFORNIA FIRST IN U. S. GRANTS FOR SOCIAL SECURITY

SAN FRANCISCO.—California leads all states in the amount of money received from the federal government for the support of needy aged persons, the needy blind and dependent children under the public assistance provisions of the social security act.

Figures released here this week disclose that \$41,648,247 in federal grants have been made to California since the federal-state arrangement became effective more than two years ago.

The total allotment included \$36,515,745 for aid to the needy aged, \$3,065,068 for assistance to dependent children and \$2,067,434 for aid to the needy blind. Current grants to California under these three programs now average more than \$2,000,000 per month.

Average monthly grants to the needy aged and blind in California are now higher than those of other states. Several states, however, are paying larger amounts under the aid to dependent children program.

Services Held Sunday For Ethel Hansen

Services were held Sunday from the Dillinger chapel, under auspices of the Christian Science Society for Ethel Hansen, 5, daughter of Mr. and Mrs. Jack Hansen, who passed to the beyond on Friday. Interment was at Union cemetery.

In addition to her parents, the child is survived by her twin sister, Anne.

In addition to her parents, the child is survived by her twin sister, Anne.

A son was born at Balderston's Station to Mr. and Mrs. George E. Balderston. The birth certificate was filed Tuesday with the county recorder by Dr. A. A. McKinnon and bears the notation that the doctor was called one hour after the child was born.

The stuff he's made of, and luck. It is the customary thing for home run hitters to go into a sad decline the moment they come within striking distance of 60 or more homers a year. The technical explanation for this decline is that they become "home run" conscious and start pressing—start trying to make every hit a homer. Pressing destroys the fluency of their swing and they get no hits, homers or anything else.

Too, Greenberg may be ahead of Ruth at the moment, but he will have to close with a rush to match the final drive that Babe staged in 1927. Ruth banged out 17 homers in the final month of the 1937 season.

FERRARIS BUILDING TWO NEW RESIDENCES ON LINCOLN STREET

Mr. and Mrs. Menio Ferrari have let out plans and specifications for the erection of two modern five-room houses on lots recently acquired, across from their present home on Lincoln street. Construction is to begin on the first one this week. J. A. Dary has the contract to build them.

The two new homes, according to the owner are each to contain five rooms upstairs with a social room and garage in the basement. Construction is to be of frame and stucco. All local, El Dorado County lumber except the hardwood for the floors, is to be used in the buildings including red fir for dimension materials and sugar pine for finish. The lumber is all being cut and finished at the Phippen mills. Shingles are to be of heavy sugar pine.

"I am building the houses for rent or resale," the owner said.

White Turns Grid Pro, Then Goes To Oxford

PITTSBURGH. (UP)—Byron (Whizzer) White, the University of Colorado's all American football player, will play professional football with the Pittsburgh Pirates this season before attending Oxford University on a Rhodes scholarship.

San Francisco papers report the recent death at Oakland of Mrs. Catherine Flick, 85. Mrs. Flick was the mother of George A. Flick, who was associated with the building of the county high school ten years ago, and she visited here a number of times during the construction of the building. In addition to the son, she is survived by two daughters. Funeral services were held Tuesday afternoon at Oakland.

A grass fire on the Latrobe road near Dugan's called out two crews from the state Division of Forestry station at Mt. Danaher on Tuesday afternoon.

Plane Decapitates Man On Lakefront Pier

WINTHROP, Me. (UP)—Seconds after he pushed his wife into the water, Walter McCarthy, 42, of Chelsea, Me., was decapitated by an airplane as he sat on a pier at Lake Maranacook.

The couple and several other persons were on the wharf when the plane, apparently in trouble, swooped down. Spectators scattered but McCarthy took time to shove his wife into the lake. Before he could follow a wing of the plane struck him in the back of the neck.

Henry Bacchi was a visitor on Tuesday from his summer range at Peavine.

The experiment station at Davis has released two new varieties of almonds that seem to be superior to the present varieties.

I. A. McGrew, Dunnigan, Yolo County, has lost 10,000 turkey poults, large enough to roost, with an unknown infection.

FHA INSURED MORTGAGE TERMS CHANGE ON JULY 1, '39

"Home owners paying more than five and one-half per cent interest on mortgages on their homes under the old short-term plan, should investigate the opportunity to save money by refinancing these loans under the FHA insured mortgage system," was the advice of J. O. Davis, district director of the Federal Housing Administration in Northern California.

He urged those contemplating such refinancing to act promptly because mortgages on old homes will not be insurable after July 1, 1939.

"Less than a year remains in which present home owners may share in the safeguards and economy of FHA insured mortgage financing," Davis declared. "After next July this governmental agency will be authorized to insure mortgages only under three distinct classifications."

"First, where the application covers property which is approved prior to completion. In other words, on new homes built under FHA inspection from plans approved by our architectural staff."

"Second, on acceptable homes, the construction of which was commenced after January 1, 1937, and completed prior to July 1, 1939."

"Third, on homes previously financed under an insured mortgage and refinanced for the purpose of substituting the mortgage or to increase or decrease the amount of the mortgage."

THEIR BOY'S A DAREDEVIL—Jen of Dennis Corrigan, daredevil flier who spanned the Atlantic to Ireland in his ancient plane, talk to the youth by radio from Hollywood. Left to right: Mrs. Jennie Corrigan, 92, grandmother; Mrs. F. Frazier Langford, aunt; Radio Announcer Clinton Twiss, and Rev. F. Frazier Langford, uncle. Mr. Langford aided young Corrigan's early flying efforts.

Edwin McGinity and Don Bathurst returned Monday evening from a vacation trip they began on Friday, visiting Yosemite, Santa Cruz and San Francisco.

Miss Frances Byrnes, daughter of County Nurse Helen A. Byrnes, is spending two weeks at the Girl Scout camp in the Big Basin, Camp Chaparral.

sewer line, attended the regular council meeting Monday night and reported that his work is virtually complete. He said that although he is leaving the city, his foremen will be here for several days finishing up minor details and will be available to the city at any time.

It was indicated that formal inspection of the main sewer line may be made this week sometime.

Other business of the Monday night meeting included a pay raise for Harrison McBeth, who has charge of the city filter plant, raising his pay from \$100 to \$125 for a month.

The council also voted approval of a plan of part-time compensation for the firemen under a plan whereby the city will pay the department \$100 per month, effective July 1, the money to be disbursed to members by the department and an accounting with the city.

Birth of a son, Philip Arthur Beckett to Mr. and Mrs. Ray W. Beckett, of Placerville, on July 25 at Placerville Sanatorium, is reported in a certificate filed Tuesday with the county recorder.

Cullen Bryant, of Latrobe, was in town Monday from his summer range in the Stonebreaker country.

The Story of OD and AD

OD and AD owned neighboring farms. Both decided to grow tomatoes. But when their tomatoes were ripe, OD and AD had different ideas as to how they should sell them. This is the story of what happened.

and the TOMATOES

How OD and AD Sold Their Tomatoes

OD filled baskets with his tomatoes and put them in a wagon and drove to town. He went up and down the streets looking for people who wanted to buy tomatoes. Some days he sold all. Some days he sold only a few. When the season was over, he found he had made just enough to live on.

AD thought there must be a better way to sell his tomatoes. He knew he must tell people about them, but he decided he could never sell very many tomatoes if he talked to people one at a time. So he used one of the simplest forms of ADVERTISING. He built a stand by the side of the road where many

people passed. He put up a sign that said: "AD's big, red, ripe, juicy tomatoes." Because so many people saw the sign, enough people stopped to buy so that he sold all his ripe tomatoes every day. Many who bought, remembering his name on the sign, came back again and again. When the season was over, he had money in the bank.

One day AD heard that tomato juice was healthful and good to drink. He thought it would also be convenient to handle, to sell, and to serve in the home. He told OD about it. The next year both decided to make and sell tomato juice.

How OD and AD Sold Their Tomato Juice

OD's wife squeezed tomatoes all day and put the juice in bottles. OD took it to town and went from door to door, looking for people who wanted to buy tomato juice. In a whole day he could call at only about 50 homes. As most people had never heard of tomato juice and did not know how good it was, he sold only a few bottles each day.

AD felt sure there was a better way to make and sell his tomato juice. He took some money from the bank and bought a shiny new press that squeezed out juice easily and quickly. He put the juice in bottles that could be tightly sealed. He had labels printed for the bottles, reading: AD'S PURE TOMATO JUICE.

He went to the grocery stores in town, where many people came every day, and asked the grocers to put a few of his bottles on their counters. Then he put an advertisement in newspapers read by thousands of people. The advertisement said:

"Enjoy the refreshing taste of AD'S PURE TOMATO JUICE, pressed from big, red, vine-ripened tomatoes. Good to drink and good for you. At your favorite grocery store."

Because so many people read about it, enough people asked for it to exhaust the supply quickly. And remembering AD's name on the label they came back and asked for it again. So AD bought tomatoes from his neighbors and made more tomato juice to supply the demand.

What OD and AD Did The Next Year

OD and his wife decided that if they were going to make any money, they would have to work harder. So she got up earlier in the morning and picked tomatoes and squeezed and bottled juice all day. OD spent a longer day in town trying to see more people in order to sell more bottles. But, even though OD and his wife worked long and hard, they could not make any money.

AD now saw how true it was that the more people he told about his tomato juice, the more he sold. So he advertised in other cities, telling women how good tomato juice was for their families to drink. He also sent salesmen to call on grocers. He got so many orders that he arranged to buy tomatoes from hundreds of other farmers, built a bigger building, bought more equipment, more

bottles and labels, and employed more people. AD knew that, because his name was on every bottle, he must always maintain the high quality of his product. And, because he did this, women soon insisted on AD'S PURE TOMATO JUICE.

AD already had found that the more he advertised and the more bottles he sold, the less it cost him to put up each bottle. Therefore, as his advertising was extended all over the country and his sales increased, he reduced the price. Thus more and more people could afford to enjoy tomato juice, and, although his profit per bottle was now very small indeed, he sold so many bottles that he had a very fine business. So both AD and his customers were benefited.

AD tells OD how an Idea Became an Industry—through ADVERTISING

ONE DAY, years later, OD called on his old neighbor AD. He said, "It's remarkable how your business has grown since you got that idea about selling tomato juice."

"Yes," said AD, "but even more important have been the benefits to other people. We are now only one out of many producers of tomato juice. Yet we take all the tomatoes grown by more than a thousand farmers who have here an assured market for their crops. We give steady employment the year round to several hundred

people and employ hundreds more on part-time. We pay more than half a million dollars a year to manufacturers of cans, bottles, labels, supplies, and equipment."

"The entire industry now sells more than twenty million dollars worth of tomato juice a year and the public enjoys its healthful benefits—at the lowest price at which it ever has been sold. Yes, tomato juice was a great idea, but that idea would have benefited very few—without ADVERTISING to tell the story."

Man Denies Guilt On Firearms Charge

Theodore Medlin, charged with displaying firearms in a threatening manner, entered a plea of not guilty before Justice of the Peace T. F. Lewis Monday afternoon and was remanded to jail for a trial set for 2 o'clock this (Tuesday) afternoon.

Arrested Sunday by Sheriff Smith, assisted by Traffic Officer Sabich and City Officer Le Bourveau, Medlin was found to have two shot-guns and a small bore pistol in his car.

The charge against Medlin is understood to be based upon an altercation Sunday in the Cedar Grove district.

MYSTERY DEATH AT SEA BARED AS LINER NORMANDIE ARRIVES

NEW YORK, (U P)—Federal agents learned today from seamen aboard the Normandie that Prof. Robert Moore Duncan, 35, of Colgate University, had quarreled with his wife Sunday night before he beat and choked her and disappeared, apparently overboard, while the ship was 500 miles at sea.

The Normandie docked last night with first details of the mystery.

Mrs. Duncan was met by her father, Dr. Willard S. Richardson, who forbade her to talk to newspapermen. They went home immediately. Those aboard the ship told them that her husband sprang at her throat without provocation while they were standing at the deck rail, after dinner Sunday evening.

MY WORD! A BOATER!—When Douglas Corrigan, Los Angeles mechanic who flew the wrong way and landed in Ireland, arrived in London for a sight-seeing visit, few Londoners recognized him. It was because, usually bareheaded, he wore a straw hat known in England as a "boater." This W. W. Radiophoto from London shows him with it. He is due in New York on Aug. 4.

Planning FOR Industry Instead Of WITH It Yields Depression

By RALPH H. TAYLOR

(Executive Secretary, Agricultural Council of California)

The current depression is industrial and political—not financial!

It is a direct result, at least in large part, of unfortunate attempts by government to plan for industry, instead of with it.

In those economic fields in which government has acted in a cooperative spirit, the force of depression is less marked.

And it is no coincidence that the field of industry hardest hit by the new depression is the field where the government has failed to live up to its own specifications.

Highlighted, such are the views of Prof. Raymond Moley, former No. 1 New Deal adviser, as expressed in a recent address before the San Francisco Commonwealth Club.

Coming from Prof. Moley, who has charted many of the Roosevelt policies during the critical period just after the President first assumed office, this frank diagnosis of "what ails America" is of more than passing significance.

Recognized as one of the nation's foremost progressives, Prof. Moley has bluntly predicted the "discrediting of all progressive efforts for years to come" unless progressives stop resorting to reactionary and undemocratic methods to achieve their ends.

"In the field of manufacturing industries and in public utilities, the government sought to force rather than persuade," said the noted economist and editor.

"It sought to plan for industry, not with it. The Holding Company 'death sentence' was planning FOR. The de-

structive policies into which the TVA plunged was planning FOR. The surplus tax was planning FOR. All these coercive policies encountered opposition, and when this opposition became serious, the inevitable happened. The administration undertook to compel acquiescence in its policies by an impairment of the democratic process. What had been an economic crisis—a crisis which, in my judgment, still confronts us."

Turning his guns on class warfare and condemning so-called liberals for deliberately pitting class against class, Prof. Moley continued:

"Mined by their belief that bigness is badness, is a belief in the theory of class struggle—in a word in which the rule of tooth and claw prevails, a world in which labor is inevitable, permanently, pitted against management, agriculture against banking and industry, the consumer against the investor."

"Future students may derive a certain cold academic satisfaction from pointing to the paradox here . . . the advocacy by progressives of a reactionary theory of economics. But those of us who are alive today cannot help but regret deeply the tragic results of the impoverishment of the nation brought about through lessened production and increasing unemployment."

Supporters of New Deal policies, undoubtedly, will contend that Prof. Moley is embittered against the administration of which he was formerly a spectacular leader. And there may be some merit in the contention. California farmers are of all parties and all

HAWAII CLIPPER HUNT TO BE CONTINUED BY ARMY PLANES

MANILA, (U P)—Military officials today said that United States bombing planes would continue to search for the missing Hawaii Clipper, which vanished early last Friday between Guam and Manila with 15 persons aboard, after the hunt by sea had been halted.

Aircraft from Camp Nicholas and Camp Clark will continue to fly over the area in which the clipper was last reported as long as Pan American Airlines consider it "advisable," the officials said.

George Kloefer of Coloma was a visitor in the county seat Monday afternoon.

political beliefs . . . and the Agricultural Council of California is strictly non-partisan. It holds no brief for Prof. Moley, nor for the administration.

But agriculture has a vital interest in the causes of depression; it has a vital interest in ending senseless class warfare and in aiding in a return to sound values. And California farmers, by and large, have an intense belief in democratic processes . . . in self-determination and in the old-fashioned theory that government is the servant of the people, not the master.

In all branches of government . . . national, state and local, there has been an increasing tendency, perhaps due to emergency conditions of the depression, to reach out for dictatorial powers and to plan for, instead of with. That tendency is one that needs correction, if agriculture and business and industry are to achieve any measure of recovery. American agriculture found its place in the sun by private initiative; America's transportation facilities were developed by private initiative; American homes were lighted and farms supplied with power by private initiative. America came to greatness by private initiative. And most Americans still believe in it!
